California State Parks

ANZA STATE PARK – NOW: ANZA-BORREGO DESERT STATE PARK

When the land for this park was acquired by the state in 1933 it was originally designated as two separate parks – Anza State Park and Borrego Desert State Park. When the two parks combined into a single park, Anza-Borrego Desert SP became the largest state park in the country. CCC crewmen working at Borrego Desert SP established Borrego Desert Side Camp as a spike camp from CCC Camp Cuyamaca Rancho (SP-4).

ARMSTRONG REDWOODS STATE PARK – NOW: ARMSTRONG REDWOODS STATE RESERVE

The land for Armstrong Redwoods SR was acquired by the state in 1934. The crewmen who performed conservation and construction activities in the park were enrolled in Company 2916 and lived at CCC Camp Armstrong (SP-39).

- Armstrong Forest Theater
- Armstrong Grove
- Luther Burbank Circle
- Colonel Armstrong Tree

BIG SUR STATE PARK – NOW: PFEIFFER BIG SUR STATE PARK

The state made its first acquisitions for this park in 1933. It was known alternatively as Big Sur State Park and Pfeiffer's Redwoods State Park before the two names were joined to form the current park name. Enrollees who worked at this park lived at CCC Camp Big Sur (SP-12) and belonged to Companies 990, 1952, 3326, 3343, 3780, 5435, and 5494.

BLISS MEMORIAL STATE PARK – NOW: D.L. BLISS STATE PARK

In 1929 the California State Park Commission acquired the land for Rubicon Point State Park. By 1935 they changed the park's name to Bliss Memorial State Park. A large land donation in 1953, including Vikingsholm, prompted the state to split Bliss Memorial SP into two separate state parks: D.L. Bliss SP and Emerald Bay SP.

In 1934 the first CCC crewmen arrived for conservation and construction activities at CCC Camp Rubicon Point (SP-18). The crewmen who worked at Bliss Memorial SP belonged to Companies 219, 917, 1940, 2712, and 2940. Because the weather during the winter months often-prevented crews from working, SP-18 was only occupied during the summer and early fall. During these months, crewmen living at SP-18 often found it necessary to maintain a fire suppression spike camp at Eagle Falls Guard Station near Emerald Lake.

CALAVERAS BIG TREES STATE PARK

The establishment of Calaveras Big Trees SP happened in two major phases – the acquisitions of the North Grove (June 24, 1931) and the South Grove (1950s). The first CCC work done at the park was performed by Company 590, which occupied CCC Camp Calaveras Big Trees (SP-1). When that campsite relocated it became known as SP-22, and was occupied by Companies 1721, 1921-V (designating a company of army veterans), 2932-V (army veterans), 2940, and 3860.

Both camps were also known as Camp Big Trees and Camp Calaveras. Most of these companies also worked at Mount Diablo SP.

CALIFORNIA REDWOODS STATE PARK – NOW: BIG BASIN REDWOODS STATE PARK

Originally created as California Redwoods State Park in 1902, Big Basin SP is the oldest state park in California, and one of the oldest in the country. During the 1930s, this park saw its share of different CCC Companies living in different camps, including Company 1508 in CCC Camp Redwood Park (SP-3), Companies 1721, 1913, and 5490 in CCC Camp Old Lodge (SP-15), and Companies 1913 and 3342 in CCC Camp White House (SP-37).

CASTLE CRAGS STATE PARK

This park was established in 1934. While in existence, crewmen from Companies 978, 998, 1908, 2951, and 4761 lived and worked in CCC Camp Castle Crag (SP-25). During the winter months, when heavy snowfall made construction impossible, most of the members of SP-25 were sent to improve lands in the newly formed East Bay Regional Park District. CCC Camps Lake Chabot (SP-5) and Wildcat Canyon (SP-33) were formed as spike camps in the East Bay for this purpose. Men were also sent to inhabit the spike camp at CCC Camp Burney Falls (SP-20) to construct McArthur-Burney Falls Memorial SP.

CUYAMACA RANCHO STATE PARK

Cuyamaca Rancho SP was created in 1933. Because of its large size, two different CCC camps operated at the park, one at each end. CCC Camp Cuyamaca Rancho (SP-4) housed Companies 1501, 1942, 1944, 2921, 3869, and 4813 on the east side of the park, and CCC Camp Green Valley Falls (SP-14) housed Companies 904, 1627, 1942, and 3325 on the west side of the park. Some members from SP-4 developed several spike camps at neighboring state beaches and parks, including Borrego Desert Side Camp at Anza-Borrego Desert SP (formally Borrego Desert SP). Furthermore, crewmen from SP-4 would undertake the responsibilities of maintenance and custodial upkeep during periods of vacancy at CCC Camps SP-16 (at Palomar Mountain SP) and SP-26 (at Mount San Jacinto SP).

DOHENY BEACH STATE PARK – NOW: DOHENY STATE BEACH

This park, originally created as Doheny Beach SP, was acquired in 1931. Enrollees working at this park belonged to Companies 467, 904, 912, 916, 1945, and 6425, and lived nearby at San Clemente State Beach, first at CCC Camp San-Clemente Doheny (DSP-1), and then at CCC Camp San Clemente Beach (SP-27). DSP-1 and SP-27 served as the base camps for construction and conservation activities at several other area state beaches as well.

DRY LAGOON STATE PARK – NOW: HUMBOLDT LAGOONS STATE PARK

Originally created as Dry Lagoon SP, this park was acquired by the state in 1931. Enrollees working at this park lived nearby in CCC Camp Prairie Creek (SP-8) at Prairie Creek Redwoods SP and belonged to Companies 544, 737, and 1903. SP-8 also served as the base camp for work at several other state parks, including Patrick's Point SP.

The Civilian Conservation Corps did not carry out any construction in this park. The photographs shown here were taken by CCC members during the 1930's.

- Stout Memorial Grove
- truck trail
- Valley of Virgin Redwoods

HUMBOLDT REDWOODS STATE PARK

One of the most famous state parks in California is also one of its oldest. Established in 1921, campers in Humboldt Redwoods SP created makeshift campsites before the CCC constructed permanent ones in the 1930s. While working in the park, the CCC set up two separate camps – CCC Camp Burlington-Humboldt (SP-2), which housed Companies 925 and 1507, and CCC Camp Stephens Grove (SP-32), which housed Companies 732, 1507, 2509, 2940, and 5460. Camp Burlington-Humboldt was also unofficially known as Camp Burlington, Camp Humboldt,

and Camp Dyerville. One of the main functions of SP-2 was to establish the State Park Headquarters in Dyerville, CA. Crewmen from SP-2 and SP-32 also performed work at Richardson Grove SP.

KRUSE RHODODENDRON STATE PARK – NOW: KRUSE RHODODENDRON STATE RESERVE

- scenic views of a road through the forest – one picture is of the coastline, probably at what is now Salt Point State Park

LA PURISIMA STATE HISTORIC MONUMENT – NOW: LA PURISIMA MISSION STATE HISTORIC PARK

The reconstruction efforts of CCC and WPA labor combined with the talent of the WPA artists produced one of the most fully restored California Missions in existence. The state acquired the Misión la Purísima Concepción de María Santísima and its grounds in 1935 and immediately went to work on planning and designing its full and accurate restoration. When first established, the park was originally known as La Purisima State Historic Monument. The crewmen from Company 1951, the only company assigned to work at the mission, lived first at CCC Camp Santa Rosa (DSP-3) and then at CCC Camp Purisima (SP-29).

MCARTHUR MEMORIAL STATE PARK – NOW: MCARTHUR-BURNEY FALLS MEMORIAL STATE PARK

Acquired by the state in 1922, this is one of California's oldest state parks. It was known alternatively as McArthur Memorial State Park and Burney Falls State Park before the two names were joined to form the current park name. Crewmen from Companies 977, 1909, 2951, and 4761 lived and worked in CCC Camp Burney Falls (SP-20), which was established as a spike camp from CCC Camp Castle Crags (SP-25).

MORRO BAY STATE PARK

The land for Morro Bay SP was acquired by the state in 1934. Although crewmen from the Works Progress Administration (WPA - later known as the Works Projects Administration) worked on several projects at Morro Bay SP, especially the golf course, crewmen from the CCC provided most of the labor for the construction of trails, retaining walls, etc. Enrollees from Companies 1916-V (designating a company of army veterans), 1952, 3344, and 5447 lived at CCC Camp Morro Bay (SP-17). In 1937, crewmen from SP-17 established a spike camp, CCC Camp Brand Park (SP-30), for construction and conservation activities at Brand Metropolitan Park in Glendale, California.

MOUNT DIABLO STATE PARK

Mount Diablo SP, established in 1921, is one of the oldest state parks in California. Several different companies occupied CCC Camp Mount Diablo (SP-9) during its existence, including Companies 590, 1921-V (designating a company of army veterans), 2932-V (army veterans), 3357, and 3860. Most of these companies also worked at Calaveras Big Trees State Park.

MOUNT SAN JACINTO STATE PARK

California acquired the first lands for Mount San Jacinto SP around 1934. CCC crewmen only established permanent camps from 1934-35. The first CCC camp established, Camp Mount San Jacinto, site #1 (SP-19), was occupied by Company 913. The next year Company 974 occupied CCC Camp Mount San Jacinto, site #2 (SP-26). During periods of vacancy, crewmen from CCC Camp Cuyamaca Rancho (SP-4) at Cuyamaca Rancho SP occupied SP-26 for maintenance and custodial upkeep purposes.

MOUNT TAMALPAIS STATE PARK

Long before California acquired the land for Mount Tamalpais SP in 1928, Bay Area residents frequented the mountaintop for leisure activities. After its establishment as a state park, CCC army veteran companies, including Companies 1920-V and 1921-V, performed most of the area's construction and conservation activities. Other enrollees on duty at CCC Camps Mount Tamalpais (SP-23) and Alpine Lake (SP-36) (a spike camp) were assigned to Companies 2940 and 1940. The most notable structure built with CCC labor at the park is the Mountain Theater, or Cushing Theater. The 6,000 seat outdoor amphitheater on the southeast slope of the mountain was constructed entirely of locally found earth-embedded stone.

NATURAL BRIDGES BEACH STATE PARK – NOW: NATURAL BRIDGES STATE BEACH

The state acquired this beach property for park purposes in 1933 and originally named it Natural Bridges Beach State Park. CCC workers at the park lived in CCC Camp New Brighton (SP-24), which also served as the base camp for construction and conservation activities at other state beaches, including Seacliff Beach SP and Sunset Beach SP. The enrollees stationed at SP-24 belonged to Companies 1236, 1721, 1913, 3327, 3345, 5434, and 5447.

PATRICK'S POINT STATE PARK

The state acquired Patrick's Point SP in 1930. Enrollees working at this park lived in nearby CCC Camp Prairie Creek (SP-8) at Prairie Creek Redwoods SP. Enrollees belonging to Company 1903 performed most of the construction and conservation activities at SP-8. Crewmen from Companies 544 and 737 performed additional work. SP-8 also served as the base camp for work at several other state parks, including Humboldt Lagoons SP (formally Dry Lagoon SP).

RUSSIAN GULCH STATE PARK

California acquired the lands for Russian Gulch SP in 1933. The camp stationed at this park, CCC Camp Russian Gulch (SP-11), housed Companies 219, 285, 572, 2940, 3746, and 5448 among others. SP-11 served as the base camp for construction and conservation activities at other state parks as well, including Van Damme SP and Navarro River Redwoods SP (formally known as Paul M. Dimmick Memorial Park).

SAN CLEMENTE BEACH STATE PARK – NOW: SAN CLEMENTE STATE BEACH

This park, originally created as San Clemente Beach SP, was acquired around 1933. The first CCC camp, Camp San Clemente-Doheny (DSP-1), was established on a bluff overlooking the Pacific Ocean. The camp's site later moved to a lower elevation and was renamed CCC Camp

San Clemente Beach (SP-27). Enrollees who worked at these two camps were assigned to Companies 467, 904, 912, 916, 1945, and 6425. DSP-1, and later SP-27, served as the base camps for construction and conservation activities at several other area state beaches, including Doheny State Beach.

- dam
- picnic table
- picnic ramada
- sign (park/campground entrance)
- tool shed

SEACLIFF BEACH STATE PARK – NOW: SEACLIFF STATE BEACH

The state acquired this beach property for park purposes in 1931 and originally established it as Seacliff Beach State Park. Workers at Seacliff SB lived nearby in CCC Camp New Brighton (SP-24) at New Brighton Beach SP. SP-24 served as the base camp for construction and conservation activities performed at several other state beaches, including Natural Bridges Beach SP and Sunset Beach SP. The enrollees stationed at SP-24 belonged to Companies 1236, 1721, 1913, 3327, 3345, 5434, and 5447.

- warden's garage
- warden's residence

SONOMA COAST BEACH STATE PARK – NOW: SONOMA COAST STATE BEACH

The Civilian Conservation Corps did not carry out any construction in this park. The photographs shown here were taken by CCC members during the 1930's.

- Goat Rock Beach

SUNSET BEACH STATE PARK – NOW: SUNSET STATE BEACH

The state acquired this beach property for park purposes around 1933 and originally established it as Sunset Beach State Park. Workers at Sunset SB lived nearby in CCC Camp New Brighton (SP-24) at New Brighton Beach SP. SP-24 served as the base camp for construction and conservation activities performed at several other state beaches, including Natural Bridges Beach SP and Seacliff Beach SP. The enrollees stationed at SP-24 belonged to Companies 1236, 1721, 1913, 3327, 3345, 5434, and 5447.

- camp stove
- picnic table
- septic tank
- trail

VAN DAMME STATE PARK

California acquired the land for Van Damme SP in 1930. The CCC enrollees who worked at this park belonged to Companies 219, 285, 572, 2940, 3746, and 5448 and were stationed nearby at CCC Camp Russian Gulch (SP-11) in Russian Gulch SP. SP-11 also served as the base camp for Navarro River Redwoods SP (then known as Paul M. Dimmick Memorial Park).

- riprap
- stall garage
- trail
- truck trail
- Van Damme Road
- warden's residence

ZOOLOGICAL STATE PARK – NOW: TULE ELK STATE RESERVE

Zoological State Park (the former name of Tule Elk SR) was acquired in 1932 for the purpose of protecting the roaming wild elk of the Elk Hills Naval Oil Reserve. The first workers at the park lived in CCC Camp Wildlife Park (DSP-5), which was reclassified in 1935 as Camp Zoological Park (SP-31). Company 1958, the only company assigned to the park, accomplished all of their construction and conservation activities from July 1934 to November 1935.

- bench

- stall garage
- tool shed
- warden's garage
- warden's residence

Future California State Parks

DIMMICK MEMORIAL PARK – NOW: NAVARRO RIVER REDWOODS STATE PARK

When this park was originally created as Paul M. Dimmick Memorial Park it was not affiliated with the California State Park system. It was reclassified some years later as the Paul M. Dimmick Wayside Campground, and in April 1991 it became a state park. The CCC enrollees who worked at this park belonged to Companies 219, 285, 572, 2940, 3746, and 5448 and were stationed at CCC Camp Russian Gulch (SP-11) in nearby Russian Gulch SP. SP-11 served as the base camp for Van Damme SP as well.

- camp stove
- campsite
- CCC Project No. 151
- comfort station
- Navarro River
- picnic table
- sign (park/campground entrance)
- warden's residence

MENDOCINO WOODLANDS RECREATIONAL DEMONSTRATION AREA – NOW: MENDOCINO WOODLANDS STATE PARK

Mendocino Woodlands SP was originally created as Mendocino Woodlands Recreational Demonstration Area (RDA) around 1935, one of only 47 RDA's created in the country. Unlike the other parks in this collection, crewmen from the Works Progress Administration (WPA - later known as the Works Projects Administration) primarily constructed the multiple structures in the park. On the occasions when CCC crewmen were sent in from neighboring state parks, their work was limited to constructing trails and roads and performing conservation activities. This park also went by the name of Mendocino Woodlands Outdoor Center before being classified as a state park in 1999.
